Sunquest PowerPath® Advanced Materials Processing

Designed for Anatomic Pathology Laboratories

Sunquest PowerPath Advanced Materials Processing (AMP) is a specimen management and tracking module that is fully integrated with Sunquest PowerPath so all user actions in Sunquest PowerPath and the AMP module are recorded in one database without interface or integrity problems.

OPTIMIZE SPECIMEN MANAGEMENT

- Track sample progress and location throughout the workflow
- Access comprehensive specimen audit trails to see who last handled a specimen, block or slide
- Organize materials for storage, retrieval, send out and discard

PROMOTE PATIENT SAFETY

- Promote on-demand accurate labeling and tracking of histology and cytology materials
- Confirm positive identification and reconciliation of case materials at transfer steps
- Identify lost or misplaced materials to quickly locate last known location

DRIVE WORKFLOW EFFICIENCY

- Retrieve case details immediately upon scan of a sample
- Print labels quickly on demand
- Access common tasks performed at each key workflow step
- Leverage touch screen and voice recognition technology to streamline tasks
- Promote accuracy with barcode technology
- Leverage single piece workflow with just-in-time labeling of materials, or labeling in batch with verification

Optimizing Anatomic Pathology with advanced tools and processes

Sunquest PowerPath Advanced Materials Processing (AMP)

SUNQUEST POWERPATH AMP IS A TRACKING SYSTEM INTEGRATED INTO THE ANATOMIC PATHOLOGY WORKFLOW

- Increased Interoperability
- Turnaround Time Tracking
- Barcode Labeling
- Specimen Management
- Touch & Voice Compatibility
- Improve Patient Safety

IMPROVING AP LABORATORY PERFORMANCE

- Turnaround time tracking
- Barcode Labeling
- Specimen Management
- Patient Safety
- Workflow Efficiency
- Touch and Voice Capable
- Compatible with Citrix

About Sunquest • The One delivering labs to new heights

Sunquest Information Systems Inc. provides diagnostic informatics solutions to laboratories worldwide. With our wide-ranging technical and cross-discipline expertise, and equally deep business acumen, no one is better equipped than Sunquest to transform your lab to meet today’s complex healthcare challenges and deliver next-level performance. Since 1979, Sunquest has helped laboratories and healthcare organizations enhance efficiency, improve patient care, and optimize financial results. Our capabilities include multi-site, multi-disciplinary support for complex anatomic, molecular and genetic testing, and support engagement with physicians and patients outside the hospital at the point-of-care. Headquartered in Tucson, AZ with offices in Calabasas, London, Dubai, Bangalore and Brisbane, Sunquest is a global leader in healthcare information technology.
