Take the pain out of Blood Bank Management

Sunquest Blood Bank is an FDA 510(k) cleared solution designed to meet workflow and business needs through a comprehensive transfusion service with multi-facility inventory control, automation, and patient safety measures.

CLOSED-LOOP BLOOD BANK MANAGEMENT

• Designed to safely dispatch blood to the bedside quickly
• Rapidly respond to mass transfusion and emergency release needs
• Regulatory support for temperature tracking of returned units
• Reduce inventory overhead with just in time electronic cross match capacities
• Automate the application of special requirements by integrating data from the electronic orders

KEY BENEFITS

• Multi-facility inventory control
• Barcode-enabled throughput, including inventory entry
• Automatic workload capture
• Billing information captured and sent to hospital financial information system
• Online quality control system
• Streamlined quality assurance warnings with password override
• Attribute codes on units and patients with subsequent QA checking
• Unit tag barcoded variables for accession number, MRN, and unit number
Sunquest Blood Bank™

This efficient solution helps enable healthcare providers to manage blood products issued to patients in a hospital or centralized transfusion service. Sunquest Blood Bank™ may be installed standalone, or can be fully integrated with Sunquest Laboratory™, to further simplify installation, maintenance, and training.

- MATCH PATIENTS WITH PPID
- CONTROL INVENTORY
- ENABLE EMERGENCY RELEASE
- OPTIMIZED WORKFLOWS
- MAXIMIZE INTEROPERABILITY
- IMPROVE PATIENT SAFETY

Inventory Management and Utilization Solution
Sunquest Blood Bank helps improve the management and utilization of blood products to reduce waste and help make care safer for patients. The Emergency Release feature addresses the needs of healthcare organizations to meet the demands of any scenario.

About Sunquest • The One delivering labs to new heights
Sunquest Information Systems Inc. provides diagnostic informatics solutions to laboratories worldwide. With our wide-ranging technical and cross-discipline expertise, and equally deep business acumen, no one is better equipped than Sunquest to transform your lab to meet today’s complex healthcare challenges and deliver next-level performance. Since 1979, Sunquest has helped laboratories and healthcare organizations enhance efficiency, improve patient care, and optimize financial results. Our capabilities include multi-site, multi-disciplinary support for complex anatomic, molecular, and genetic testing, and support engagement with physicians and patients outside the hospital at the point-of-care. Headquartered in Tucson, AZ with offices in Boston, Calabasas, London, Dubai, Bangalore and Brisbane, Sunquest is a global leader in healthcare information technology.
