

Sunquest Multi-Lab Networking Solution

Sunquest recognizes that as hospital mergers and acquisitions (M&A) continue to shake up the industry, health systems and laboratories face challenges in execution and realizing economic and performance benefits.

The Sunquest Multi-Lab Networking solution seamlessly supports multi-lab integration issues. This vendor agnostic approach eliminates the need to replace existing laboratory information systems (LIS) or other IT infrastructure.

SUPPORT ACROSS ORGANIZATION TYPES

- Test sharing networks
- Large-scale referring
- Performing lab networks
- Clinical labs with multiple partners
- Single institutions with multiple lab sharing
- And more

ALLEVIATE KEY PAIN POINTS

- Expensive integration between systems
- Workload and resource requirements
- Inadequate routing of send outs
- Disparate, non-patient centric records
- Loss of revenue due to duplicate testing

MANAGE MULTIPLE LOCATIONS

- Tight integration between different EHR/LIS systems
- Enterprise-level view for physician and lab personnel

IMPROVE TEST SHARING AND ROUTING

- Joint test catalog management
- Smarter test routing
- Consolidated results reporting
- Centralized administration
- Real-time interfaces to business applications

ENSURE CLEANER ORDERS INTO THE LAB

- Improved turnaround times
- Reduced unnecessary testing
- Reduced write-offs for reimbursement

Create a virtual, single experience across multiple laboratories

Sunquest partners with organizations to identify pain points and create solutions that enable collaborative multi-lab environments, driving business growth. The Sunquest Multi-Lab Networking solution enables more test insourcing and strengthens order management capabilities, thereby increasing efficiency and revenue while reducing losses due to duplicate testing and patient leakage.

		
<p>Minimize disruptions from M&As, consolidations</p> <p>Support unique business models, from simple to complex test routing and sharing</p>	<p>Enable central administration</p> <p>Leverage joint test catalogs, real-time interfaces and consolidated results reporting</p>	<p>Scale and grow</p> <p>Add new performing labs and connect with ordering labs</p>

About Sunquest

Sunquest Information Systems Inc. provides diagnostic informatics solutions to more than 1,700 laboratories. Since 1979, Sunquest has helped laboratories and healthcare organizations across the world enhance efficiency, improve patient care, and optimize financial results. Sunquest's solutions enable world-class lab capabilities, including multi-site, multi-disciplinary support for complex anatomic, molecular and genetic testing, and engagement with physicians and patients outside the hospitals at the point-of-care. Headquartered in Tucson, AZ with offices in Boston, London, Dubai, Bangalore and Brisbane, Sunquest is a global leader in healthcare information technology.
