Designed to Enhance Pathologist Workflows

Sunquest PowerPath is a comprehensive laboratory information system (LIS) that supports streamlined, flexible anatomic pathology (AP) diagnostics. Integrated with Sunquest VUE™ Sunquest PowerPath delivers a customized pathologist experience, including efficient workflows, data management, and integrated reporting, to ensure they have the right information at the right time to make treatment decisions.

ENTERPRISE INTEROPERABILITY

- Single sign-on via Microsoft® Active Directory
- Support for foreign container IDs to eliminate re-labeling of materials
- Gyn Molecular instrument integration via Data Innovations® with automated sign-out
- Delivery of document attachments to the EHR for a comprehensive view of diagnostic information

STREAMLINED WORKFLOWS AND DATA MANAGEMENT

- Role-based permissions for granular control of data access
- Comprehensive suite of standard management reports which can be customized and scheduled to auto-run
- Case Finder tool for robust ad hoc queries

INTEGRATION WITH SUNQUEST VUE

- Leverage this integrated, web-based analysis and reporting tool
- Manage cases with customizable worklists
- Connect with Sunquest Mitogen™ LIMS to deliver streamlined, actionable reports combining AP and ancillary molecular testing, such as cytogenetics, flow cytometry, and NGS

QUALITY AND COMPLIANCE

- Comprehensive quality control flagging and reporting
- Customizable and automated case correlation queues
- Support for electronic Cancer Checklists (eCCs) and the Sunquest PowerPath Cancer Registry Interface help with accreditation and regulatory reporting
Sunquest PowerPath is a comprehensive laboratory information system for order entry, specimen tracking, technical processing, reporting, billing, and quality management. Workflows are optimized for the unique needs of the anatomic pathology lab to ensure efficiency and quality.

Enhanced Sunquest PowerPath Functionality
Sunquest VUE, now included with Sunquest PowerPath, provides enhancements to the core pathologists’ workflows to improve efficiency with fewer clicks and better access to key clinical data and sign-out tasks.

About Sunquest • The One delivering labs to new heights
Sunquest Information Systems Inc. provides diagnostic informatics solutions to laboratories worldwide. With our wide-ranging technical and cross-discipline expertise, and equally deep business acumen, no one is better equipped than Sunquest to transform your lab to meet today’s complex healthcare challenges and deliver next-level performance. Since 1979, Sunquest has helped laboratories and healthcare organizations enhance efficiency, improve patient care, and optimize financial results. Our capabilities include multi-site, multi-disciplinary support for complex anatomic, molecular and genetic testing, and support engagement with physicians and patients outside the hospitals at the point-of-care. Sunquest also provides solutions for public health organizations, in the form of disease surveillance and outbreak management, to promote public health wellness worldwide. Headquartered in Tucson, AZ, with additional offices in Calabasas, CA and India, Sunquest is a global leader in healthcare informatics technology. For more information, visit www.sunquestinfo.com
