

sunquest.

Sunquest Tempo™

Sunquest Tempo is a cloud-based application that actively monitors and provides alerts on the performance of your Sunquest solutions so you can address any systems issues immediately, anticipate future needs and monitor system health from a web browser.

Informational widgets are presented via customizable dashboards, allowing you to see only the system health information you find most valuable.

SYSTEM HEALTH MONITORING

- Quickly view the overall health and performance of Sunquest hardware, applications and interfaces

LOW ADMINISTRATOR IMPACT

- Self-updating, with future upgrades and maintenance occurring automatically by the system
- Upgrades require no scheduling or resources

PROACTIVE SUPPORT

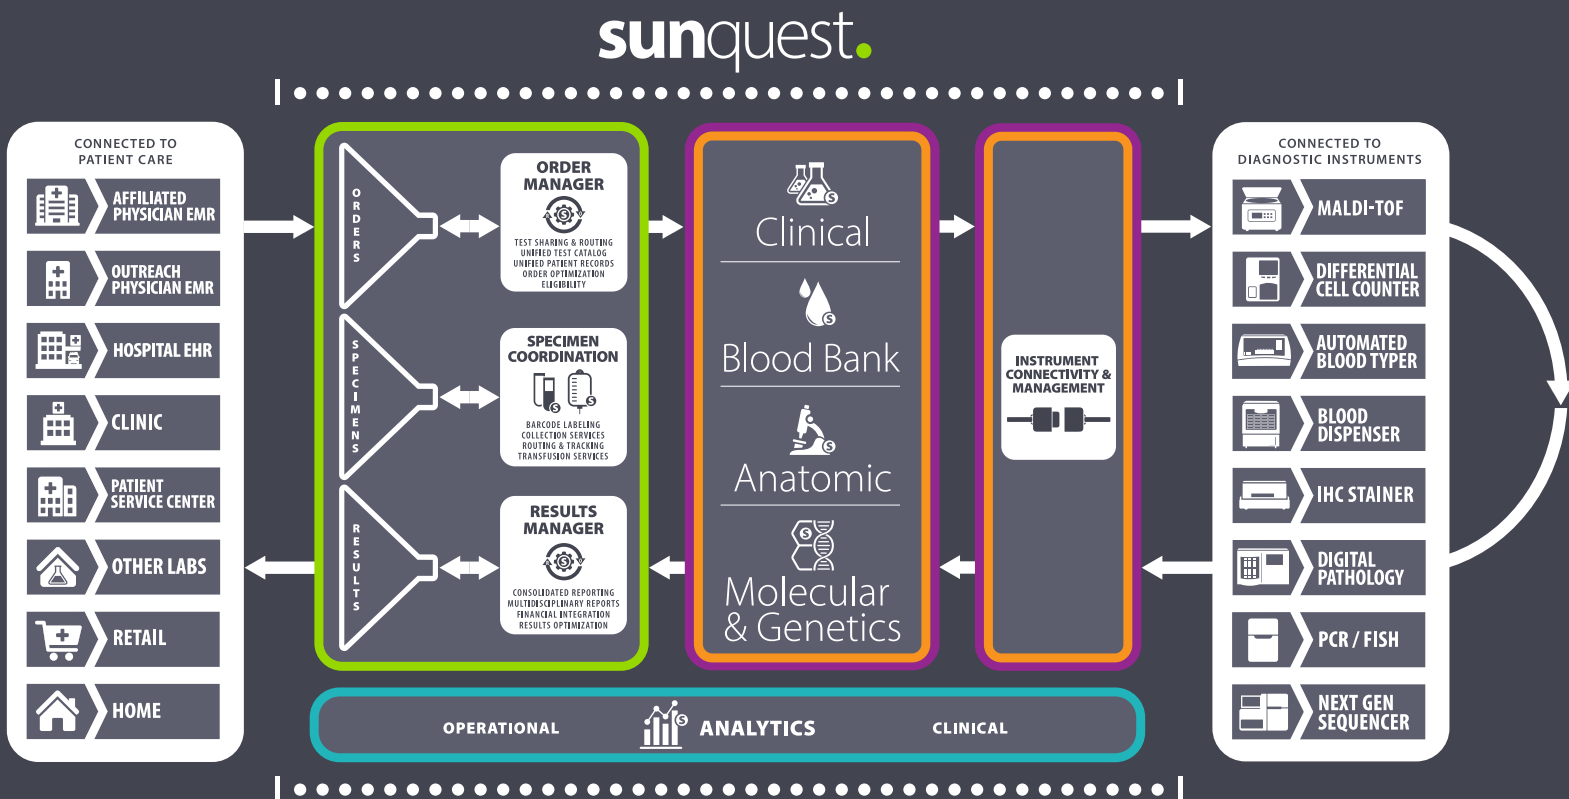

- Sunquest Client Support receives notifications of system performance at predefined thresholds
- Client Support proactively engages with sites when a problem is detected
- Alerts are sent when performance of the system falls below user defined thresholds

WIDGET: LAB SUMMARY

- The Lab Summary Widget gives you a summary of the current state of a Sunquest Laboratory™ environment
- Displays Sunquest Laboratory™ & InterSystems Caché versions, Caché Disk Space status, Transaction processor status and queues, and more

Managing the needs of the laboratory cannot and will not ever be a “one size fits all.”

Sunquest has been a leader in laboratory diagnostic information solutions for 40 years. As a leader, our focus has always been on how we can help each lab do more, connect and work with other systems in and outside of the enterprise, and deliver value not only to patients and physicians, but also to the stakeholders within the healthcare enterprise.

When you combine our wide-ranging technical and operational expertise with an equally deep business acumen, no one is better equipped than Sunquest to transform your lab to address today’s complex healthcare challenges and deliver next-level performance... **and elevate your lab to new heights.**

About Sunquest • The One delivering labs to new heights

Sunquest Information Systems Inc. provides diagnostic informatics solutions to laboratories worldwide. With our wide-ranging technical and cross-discipline expertise, and equally deep business acumen, no one is better equipped than Sunquest to transform your lab to meet today’s complex healthcare challenges and deliver next-level performance. Since 1979, Sunquest has helped laboratories and healthcare organizations enhance efficiency, improve patient care, and optimize financial results. Our capabilities include multi-site, multi-disciplinary support for complex anatomic, molecular and genetic testing, and support engagement with physicians and patients outside the hospitals at the point-of-care. Headquartered in Tucson, AZ with offices in Boston, Calabasas, London, Dubai, Bangalore and Brisbane, Sunquest is a global leader in healthcare information technology.
