Help safeguard your community
Sunquest WorldCare is a powerful and configurable product that supports a wide array of public health activities including chronic and communicable disease surveillance and case management, environmental contaminant inquiries, animal disease reporting, maternal and child wellness, and community education.

About Sunquest • The One delivering labs to new heights
Sunquest Information Systems Inc. provides diagnostic informatics solutions to laboratories worldwide. With our wide-ranging technical and cross-discipline expertise, and equally deep business acumen, no one is better equipped than Sunquest to transform your lab to meet today’s complex healthcare challenges and deliver next-level performance. Since 1979, Sunquest has helped laboratories and healthcare organizations enhance efficiency, improve patient care, and optimize financial results. Our capabilities include multi-site, multi-disciplinary support for complex anatomic, molecular and genetic testing, and support engagement with physicians and patients outside the hospitals at the point-of-care. Headquartered in Tucson, AZ with offices in Boston, Calabasas, London, Dubai, Bangalore and Brisbane, Sunquest is a global leader in healthcare information technology.
