# Sunquest VUE™

Giving every patient the best chance at good health

Modern, flexible visualization and reporting software that integrates multiple views of diagnostic information, helping pathologists efficiently and cohesively determine diagnoses.

Sunquest VUE™ provides a highly integrated analysis and reporting workflow for pathologists and other clinicians aimed at streamlining diagnosis and saving minutes per case.

An innovative and elegant solution, Sunquest VUE delivers a personalized user interface that aggregates relevant diagnostic information from multiple data sources. The result is a comprehensive view for diagnosticians.

ENABLE COMPREHENSIVE DIAGNOSES

- View diagnostic data from clinical, molecular, genetic and electronic medical records in one cohesive layout
- Review data, author diagnosis and preview reports simultaneously via a unique widescreen design or two-monitor mode

OPTIMIZE PATHOLOGIST CAPACITY

- Manage work and priorities more efficiently with a worklist column chooser, filters, sorts and saved lists
- Enable each user to organize information for the way they work with customizable analysis layout
- Increase online ordering of additional tests and panels with a simple drag-and-drop experience

REDUCE TURN-AROUND TIME

- Streamline routine case activities like initial review, sign-out and addendums
- Reduce time spent authoring reports and switching between multiple systems
- Quickly identify case and order status to accelerate completion of cases awaiting add-on tests

MINIMIZE OPPORTUNITIES FOR MISDIAGNOSIS

- See multi-disciplinary information from multiple systems in one application electronically linked by the same patient identifier
- Eliminate case data re-entry across systems and manual lookups
- Reduce the occurrence of case addendums for missed concurrent test results

Integrating Pathology with Sunquest VUE

Through an innovative web-based user interface, Sunquest VUE presents relevant diagnostic information from multiple data sources (AP, CP and EMR) to simplify data correlation, analysis and interpretation.

CONFIGURABLE WORKLIST

COMPREHENSIVE PATIENT VIEW

DYNAMIC VIEWER

CUSTOMIZABLE ANALYSIS LAYOUT

SUNQUEST LAB™ INTEGRATION

EMR/EHR DOCUMENT ACCESS

INTEGRATED LIVE REPORTS

ONE-STOP TEST ORDERING

"With the Sunquest VUE™ system, we present our pathologists with what they need to provide a high-quality diagnosis, as quickly and as efficiently as possible, maximizing the use of pathologist time, which frankly is our most expensive and scarce resource."

About Sunquest

Sunquest Information Systems Inc. provides diagnostic informatics solutions to more than 1,700 laboratories. Since 1979, Sunquest has helped laboratories and healthcare organizations across the world enhance efficiency, improve patient care, and optimize financial results. Sunquest's solutions enable world-class lab capabilities, including multi-site, multi-disciplinary support for complex anatomic, molecular and genetic testing, and engagement with physicians and patients outside the hospitals at the point-of-care. Headquartered in Tucson, AZ with offices in Boston, London, Dubai and Bangalore, Sunquest is a global leader in healthcare information technology.
