Sunquest Laboratory™ is a proven, market-leading laboratory information solution designed to help world-class labs deliver accurate, efficient and reliable results to physicians and clinicians via an integrated, closed-loop diagnostic informatics system.

**IMPROVE PATIENT SAFETY**
- Positive patient identification (PPID) at the bedside
- End-to-end integrated processes, from specimen collection to blood product administration
- Comprehensive specimen management
- Turnaround time reduction can drive faster results and diagnoses
- Integrated closed-loop blood and transfusion management solution
- Completely closed loop clinical laboratory solution reduces margin for error

**OPTIMIZE LABORATORY OPERATIONS**
- Comprehensive automation of laboratory processes
- Specimen management from the moment an order is placed
- Multi-site support
- Emergency Release blood management
- Track and route bar-coded specimens within the lab and across the network using SMART with Advanced Accessioning
- Optimize collaboration between technical and professional staff

**ASSURE CLINICAL VALIDATION**
- Automated communication and collaboration among care team
- Unique secondary review functionality supports quality and regulatory requirements
- Queue tests for review and interpretation automatically
- Intuitive web-based GUI allows reviewers to perform secondary reviews at any location from any device
- Review and approve results, insert interpretive comments and release to the patient record

**GROW CAPACITY AND OUTREACH**
- Leverage resources and optimize capacity to grow laboratory business
- Provide connectivity to community-based providers
- Improve lab efficiency and increase cost savings through reduced training using modern user interface, automated reflex testing and decant at order

**MAXIMIZE INTEROPERABILITY**
- Integrated solution comprises microbiology, molecular, general laboratory and blood bank
- Enhanced EMR interoperability and infectious disease handling
- Integration to enterprise EMR solutions drives result-oriented workflows and comprehensive reporting
INTEGRATED CLOSED-LOOP LABORATORY SOLUTION

SPECIALTY MODULES

- BLOOD BANK
- SPECIMEN COLLECTION MANAGEMENT
- CLOSED-LOOP TRANSFUSION MANAGEMENT
- CLINICAL VALIDATION
- ANATOMIC PATHOLOGY
- COMMERCIAL OUTREACH DESIGNED FOR INDEPENDENT AND REGIONAL LABORATORIES
- MOLECULAR DIAGNOSTICS

VALUE-ADD SERVICES

- Professional services for project management, custom services and staff augmentation
- 24/7 post-live support available
- Ongoing educational opportunities
- Web-based, self-paced training during and after implementation
- Highly active user community

Sunquest Laboratory version 8 with the Meaningful Use Incorporate and Reportable module (sold separately), meets Meaningful Use compliance for Electronic Reportable Results, for additional info, please visit www.sunquestinfo.com/transparency-attestation

Disclosure: The EHR Modules is ONC 2014 Edition compliant and has been certified by ICSA Labs, an ONC-ACB, in accordance with the applicable certification criteria adopted by the Secretary of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services.

About Sunquest

Sunquest Information Systems Inc. provides diagnostic informatics solutions to more than 1,700 laboratories. Since 1979, Sunquest has helped laboratories and healthcare organizations across the world enhance efficiency, improve patient care, and optimize financial results. Sunquest’s solutions enable world-class lab capabilities, including multi-site, multi-disciplinary support for complex anatomic, molecular and genetic testing, and engagement with physicians and patients outside the hospitals at the point-of-care. Headquartered in Tucson, AZ with offices in Boston, London, Dubai, United Arab Emirates, and Bangalore, India, Sunquest is a global leader in healthcare information technology.
